EXPERIENCE

2022 - Freelancing & Personal projects

All my personal projects can be found on my GitHub page, nonetheless here is an example:

E-Commerce - Front End/Back-end

Front: React.js - Redux - JavaScript - Html - Css

Back: Node.js - Express - PostgreSQL - Firebase

Responsive E-Commerce that consists of a main page with promotions that displays all products as well as a detailed one for each product, a functional shopping cart, product filtering by category or price, purchase history, log in and sing up.

2022 - No Country

No country focuses on providing real life work environment simulation for junior developers where I participated in their 7th program.

TindeV - Front End / Back-end

Front: React.js - Redux - JavaScript - Html - Css

Back: Node.js - Express - PostgreSQL - Firebase - TypeScript

TindeV focuses on a better way to developers from different stacks to connect, learn and contribute ,
